## WORK STARTS PREPARING SITE FOR \$13,000,000 COOPERATIVE SUGAR MILL IN THE GLADES

George H. Wedgworth, Belle Glade, President of the Sugar Cane Growers Cooperative of Florida, has issued a report on the new facilities:

"Preliminary work has begun on the preparation of the mill site on which will be constructed milling facilities to be known as the Glades Sugar House, along with construction of access roads to it. The mill will be located on the Airport road just northeast of Belle Glade and it is expected to be completed before December, 1962, when the first grinding season will begin.

"Preparations for planting of the sugar cane to be processed through the mill are also under way. A minimum of 20,000 acres of muckland bordering the eastern and southern shores of Lake Okeechobee will be planted which will be enough to keep the mill running at full capacity," Mr. Wedgworth said.

Mr. Wedgworth also stated, "Glades Sugar House will have a 5,000-ton daily capacity over a minimum of 150 days of harvesting. More than 1,000 workers will be employed in the plant and fields and it involves an investment estimated to be in excess of \$13,000,000.

In outlining the history of the project, Wedgworth said the Sugar Cane Growers Cooperative of Florida was organized in July, 1960, by representatives of all vegetable growers and packing house organizations in the Glades area.

Following the organizational meeting, Dr. Arthur G. Keller of Arkel Engineering Corporation, Baton Rouge, Louisiana, an internationally known designer and engineer of sugar houses, was retained by the Cooperative to prepare a feasibility study. The study was favorable and the Cooperative proceeded with the arrangements which have resulted in the construction now under way.

Farrel - Birmingham Company Inc. of Ansonia, Connecticut, is in charge of the construction and is also furnishing the milling tandem. Farrel-Birmingham Company is affiliated with Sucrodes de Abacora, Inc. of San Juan, Puerto Rico, which is also supplying certain of the sugar processing equipment. These organizations have established offices in the Elsbury Building in Belle Glade.

The Cooperative has associated Czarnikow-Rionda Company of New York with it in the field of management, which company will also operate as an individual grower, processing its cane through the Glades Sugar House.

Officers of the Sugar Cane Growers Cooperative of Florida are, in addition to Wedgworth, Robert D. Aepelgren, Pahokee, Vice President; and Walter J. Kautz, Canal Point, Secretary-treasurer. Directors, in addition to Wedgworth, Aepelgren and Kautz, are: Joe Tom Boynton, Pahokee; Andrew Duda, Jr., Oviedo; Lewis

### Farnall Retires As B. G. Post Master

George P. Farnall, who has been postmaster of the Belle Glade Post-office for the past 31 years, will retire, effective Aug. 9, it was announced Wednesday.

Farnall was appointed post master on March 8, 1930, and formally commissioned in May, 1930.

Farnall plans to continue to make his home in Belle Glade after his retirement. He is married to the former Gertrude M. Wright, who makes his home in the West, and one who is a member of the Belle Glade Police Department.

Farnall was born in Kensington, London, England, Sept. 13, 1894, and migrated to Canada at an early age, and thence to Florida. He served with the armed forces during World War I, and was injured overseas. He has been active with Post 20 of the American Legion for a number of years.

### Average Meat Cost Set At \$91 Annually For American Citizens

GAINESVILLE — The average person in the United States spends about \$91 a year for meat, reports Mrs. Ruth O. Townsend, assistant in nutrition with the Florida Agricultural Experiment Stations.

This represents about 4.6 percent of the average person's income, and it buys 55.8 pounds of beef, 64.6 pounds of pork, 6.3 pounds of veal and 4.6 pounds of lamb and mutton.

Beef consumption is expected to reach a record high of about 90 pounds per person in 1961. But Mrs. Townsend points out that consumption of pork per capita has been declining since World War II. There has also been a trend to fresh meats and away from cured pork items.

### Death Comes To Alabama Relative

Mr. and Mrs. Wilbur Echols and Renza were called to Roanoke, Ala. Tuesday because of the sudden death of their grandfather, Charlie Hudson, who died of a heart attack, Monday night. Mr. and Mrs. L. D. Echols and Betty were visiting Mrs. Echols' parents, Mr. and Mrs. Hudson when death came to her father. Funeral services were held in Roanoke Thursday at 11 a. m.

Friend, Pahokee; Billy Rogers, South Bay; Fritz Stein, Jr., Belle Glade; John Tiedtke, Winter Park; Roy Vandegrift, Sr., Pahokee; and W. R. Wilson, Pahokee.

All officers and directors are member-growers of the Cooperative.

### Another Sugar Mill For Clewiston Area

CLEWISTON — The Florida Cane Products Corporation, a Delaware corporation headed by Albert R. Nesa, Miami, Nelson Gluck, vice president, and James J. McVeigh, also of Miami, will rebuild a sugar cane mill in Clewiston which will have a capacity of 700-850 tons per day.

The new business will employ approximately 100-120 workers during the grinding season on a 24-hour daily basis.

The mill will be flexible and capable of producing raw sugar, refined sugar or syrup.

According to Mesa, the primary product will be making raw sugar from cane purchased largely from independent growers. The company may grow a few hundred acres of its own.

The company is presently maintaining its offices at 148 W. Flagler St., Miami, and will operate in association with Vincent Dominguez, former owner of the Central San Ramon sugar mill in Oriente Province, Cuba.

The property there, worth an estimated \$6,500,000, is in Castro's hands.

The new Clewiston mill has been in operation at New Iberia, La., and is now being dismantled for shipment to the Clewiston area.

### Taxes Are Up For Belle Glade Hospital

The Southwestern Palm Beach County Public Hospital Board of Belle Glade has set its millage for 1961 at 4.5 — a 1.3 mill increase over 1960.

The Southwest Hospital District was the latest of the county's special tax districts to set a new millage rate.

The new millage ranks Belle Glade and South Bay residents along with those from Pahokee as the highest taxed people in the county.

The Northwestern Hospital District, which includes Pahokee and the rest of the northwestern section of the county, have the same tax rate. A 4.5 mill tax levy was set earlier in the month.

Residents outside Pahokee city limits, however, are spared a Port of Palm Beach tax since they are not in the port district.

E. F. Sanders, Belle Glade hospital superintendent, said a \$4,221,493 decrease in valuations for the district is responsible for the millage increase.

Also, he said, the district's budget has increased from \$337,000 to \$388,620 due to expanding population causing increases in hospital operation costs.

### Funeral Services Mrs. Maude Tedder

Mrs. Maude Tedder, 76, died Tuesday night at her home 2961 Spencer Street in Jacksonville, following a lengthy illness with a heart condition. Mrs. Tedder was a pioneer resident of Canal Point and lived here many years. For the past 20 years she has made her home with her daughter, Miss Harriett Tedder and her sister, Mrs. Freddie Geiger in Jacksonville.

Survivor's include, besides the daughter and sister, one son, Harold Tedder of Belle Glade; two sisters, Mrs. Glover Peeler, Jacksonville; Mrs. Sally Williams, Savannah, Ga.; one brother, W. L. (Leonard) Geiger of Pahokee; six grandchildren and many nieces and nephews.

Funeral services were held in Jacksonville yesterday.

### Florida's Feeder Cattle Production Gaining On Demand

GAINESVILLE—Florida is well on the way to becoming self-sufficient in feeder cattle production, reports J. E. Pace, animal husbandman with the Florida Agricultural Extension Service.

Large numbers of feeder cattle are now being produced annually in Florida's commercial herds, and the gap between supply and demand within the state is rapidly being closed, he says.

Pace adds that the cattlemen who are making the most progress in feeder cattle production are those who follow modern management methods. They have highly improved pastures, use good bulls with a known history, cull their cow herds closely, select herd replacements with care, pregnancy test their cows, and keep records on the performance of each cow.

### County Advertises Land For Sale

The county commission this week decided to put a plot of park land in West Palm Beach up for sale to the highest bidder.

The land, owned by the county is located at North Dixie and 58th St., and has been used by the West Palm Beach Chamber of Commerce as a site for a welcome sign. The county said the City of West Palm Beach said had no use for the land for park purposes and that two realtors wanted to buy it.

The board voted to have the land appraised and to call for sale bids.

Mrs. J. O. Barber and daughter, Mrs. Angus Anglin and two children, Tommie and Sandra, all of Tampa, were Tuesday luncheon guests of her sister and family, Mr. and Mrs. R. H. Hewell of Canal Point.

### Contract Let And Site Clearing Is Started For Mill

Work has already begun preparing the site for a \$13.5 million sugar mill to be erected in Belle Glade for the Florida Sugar Cane Growers Cooperative.

Contract for mill construction was let Thursday with Ferrel-Birmingham Corp., according to Cooperative President George Wedgworth.

Construction is expected to take almost a year, but it is planned to have the mill in operation for the 1962-63 harvest season. It will be able to grind up to 5,000 tons of sugar cane daily.

The contractors estimate the construction job will provide work for about 400 workers, and put an additional \$400,000 into the local economy for materials and supplies purchased locally.

The Florida Sugar Cane Growers Cooperative is comprised of 52 members who plan to produce some 750,000 tons of cane on 22,000 acres of land near Lake Okeechobee.

Co-op members contributed \$750,000 toward construction of the mill and financed the balance of the project with first and second mortgages.

The plant will be known as the Glades Sugar Mill.

Prior to deterioration of relations with sugar-producing Cuba there were two mills in the state.

### Friendly Store Is Robbed Sunday

Burglars broke into the Friendly Store, 425 Lake Ave., Pahokee, early Sunday morning and made off with \$200 cash and \$300 in merchandise.

Jack Waldschlager of Pahokee, owner and manager of the store, reported the thief gained entrance to the store by throwing a rock through the large plate glass window on the front street. Merchandise consisting of watches, shoes and other items of clothing are missing.

The robbery occurred between the hours of 1:00 and 3:00 a. m., Sunday morning.

### VACATION-AT FT. MYERS

Mr. and Mrs. Gary Sanders of Pahokee, accompanied by their granddaughter, Jeanine Fussell of Jacksonville, spent last week vacationing at Ft. Myers Beach. They also have as their houseguests this week, their son-in-law and daughter, Mr. and Mrs. O. C. Fussell and children of Jacksonville.

## Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The Palm Beach County Commission took the bull by the horns this week and nicked itself for a five buck donation—\$1 per commissioner—in hard cash.

It came about when the board was requested to waive a \$4 building permit fee that had been charged against the Palm Beach County association for Retarded Children.

The board was advised it could not waive the fee—it could only be waived for federal and state agencies.

Commissioner Lake Lytal moved that the request be denied—and in the same breath added that all commissioners "kick in a buck" to

pay the fee.

They all did.

In another action on a request from the same association, the board referred to Commissioner Edward Bandow, a letter asking permission to install two green houses at the Association's workshop in John Prince Park.

Bandow asked that action be delayed until the project could be investigated. He said he objected to buildings that are not attractive being placed in the park. He said that a slat house at the workshop, right now presents an unsightly appearance.

## Dairy Farmers To Employ Secretary

ORLANDO—The Florida Dairy Farmers Federation, an organization made up of milk producers, has employed Howard Walton, former state milk administrator to serve as its paid executive secretary.

Up to this time the organization, about three years old, has had no central office or paid secretary. A central office will be opened in Orlando. Purpose of the organization is to study problems and work out plans for the advancement and welfare of dairymen, who are milk producers.

Florida now owns and operates 26 airplanes for use of officials. Among departments using planes are the State Road Department, State Beverage Commission, Game & Fresh Water Fish Commission, State Highway Patrol, State Conservation Department and State Forestry Department.

Menthol cigarettes, the fastest rising segment in the tobacco industry, were the "steady smoke" last year of an estimated 8,640,000 U. S. adults, according to the Brown & Williamson Tobacco Co. That's greater than the population of all except six states, and nearly five times the number of menthol smokers in 1955.

## Here's what the new 3 $\frac{3}{4}$ % interest rate on U.S. Savings Bonds means to you:

**\$3 = \$4** *fourteen months faster than before*

### *The Bonds you own are better than ever, too*

The new 3 $\frac{3}{4}$ % rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra  $\frac{1}{2}$ % from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

### **More advantages of U.S. Savings Bonds**

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, sam-

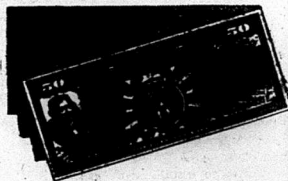

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

## Re-Registration Of Canadian Holsteins Needed By Dairymen

GAINESVILLE—Florida dairymen who have imported registered Holsteins from Canada are advised to re-register such cattle with the Holstein-Friesian Association of America.

T. W. Sparks, assistant dairyman with the Florida Agricultural Extension Service says more than 1,100 such animals have been imported into Florida during the last two years.

A By-Law change adopted at the Association's recent annual convention makes Canadian Holsteins ineligible for re-registration after

they have been in this country two years.

Re-registration delays could result in permanent loss of the registered status of the imports and their descendants and a drop of more than \$100 per head in cash value.

By filing an application within six months of the Canadian transfer date, a Holstein breeder can re-register an imported animal at the same fee he pays to register a calf under six months of age.

For both home-bred and imported Holsteins, there are two graduations in the fee schedule, at six months and at one year, before the two-year restriction becomes effective.

The average passenger car in the United States will travel 9,400 miles annually, says Quality Courts President Tommy Tucker.

William A. Wall of West Palm Beach has been installed Grand Exalted Ruler of the Benevolent and Protective Order of Elks. He is the second Floridian to receive this national honor, the previous being the late former Governor, Dave Sholtz of Daytona Beach.

## Pick your savings target and shoot straight for it!

**A** home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But there's a sure way for you to reach a half-way and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Share of all your life's money flows through Payroll Savings. You direct your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Savings Bonds.

Because Savings Bonds earn good interest—3½ percent of annually when held to maturity (10 years and 4 months)—they grow rapidly, more than twice as fast as cash. And you'll have the option to pay this extra good interest on your money every 6 months. That means 4 extra of up to 10% more than you originally paid.

Ask your company this: There's no guarantee or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$100 a week for 6 years you'll have Savings Bonds worth \$1,000 or more by 26 years, \$4,000.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

### Christian Science Group Of Canal Point

The spiritual foundation of divine healing will be emphasized at Christian Science services Sunday.

Included in the Lesson-Sermon entitled "Spirit" is the account in Matthew of the healing by Christ Jesus of the man with the withered hand.

One of the citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p. 51) describes the basis of Jesus' healing mission in these words: "Jesus was unselfish. His spirituality separated him from sensuousness, and caused the selfish materialist to hate him; but it was this spirituality which enabled Jesus to heal the sick, cast out evil, and raise the dead."

The Golden Text is from Zechariah (4): "Not by might, nor by power, but by my spirit, saith the Lord of hosts."

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{2}\%$  for the first year and a half, then a guaranteed  $4\%$  each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn their new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my E Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $1\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$5,000 (cost \$3,750.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

## New Businesses Gain In Florida

The incorporating of new businesses in Florida has turned upward again, passing the thousand mark in both May and June of this year, the Florida State Chamber of Commerce said yesterday.

"Not since December of last year, which tallied 1,028 new incorporations, has this mark been passed. The monthly average last year stood at 975 new incorporations, somewhat below the 1959 average of 1,056 but considerably better than in 1958.

"The first six months of this year showed a total of 5,542 incorporations, 13 per cent below 1960, June, however, was only 3 percent down, a decided improvement over monthly drops of from 15 to 20 per cent early this year.

"Off-setting the number of newly established firms in the state, failings through June numbered 527, half as many again as in the same period of 1960, according to reports compiled by Dun and Bradstreet.

"Current liabilities of the failing firms totaled \$22,666,000 through June, a gain of 43 per cent over 1960. In June liabilities dropped 12 per cent below 1960 for the first time since July of last year.

"Florida accounted for 5.8 per cent of the new firms established in the nation during the first six months of this year; for 5.9 per cent of the failing firms and for 4.1 per cent of the liabilities. The state's proportion of new firms was a little lower and the failure slightly higher than at this time last year."

O. H. Sheppard, accompanied by his daughter, Hazel, returned Sunday evening following a weekend in Tallahassee visiting his wife, son-in-law and daughter, Mr. and Mrs. Danny DeLeon and baby granddaughter. Mrs. Sheppard remained in Tallahassee, where she has been a visitor for the past ten days.
